I am asking Dept. of Forestry to explain to LDEQ minimum meteorological conditions needed for open burning based on their Prescribed Burn Plan.

This Plan must be used for all open burning done as forestry management.

I have been advised by phone by these two State Departments that the two people listed below can start this communication. I have spoken to Mr. Lane in person and left Mr. Cheatam a message, and I will be calling them for updates. Mr. Lane has already said that LDEQ has to call them & I imagine that LDEQ will say the same thing.

Bret Lane Dept. of Forestry @ 225-952-8008

Daniel Cheatam LDEQ @ 225-219-1333

I hope we can help them get some work done between now & the New Year. Thanks again for all you are doing for Louisiana. Ron
